Here's how easy it is!

Step 1:

Register with CoursesForYou and set up your account. You only need to do this once

Step 2:

Browse our database of over 800 courses to find the package that meets your needs and create your organisation's unique online library. We can help you with this and even create a branded website that's exclusive to your and your colleagues or clients – for no extra charge

Step 3:

Direct learners to your online library to enable them to browse the courses on offer. Allocate them with a username and password when they wish to commence learning

Step 4:

Order the courses or programmes you need. Courses are charged at a 'per learner' cost (not seen by the learner) and cannot be accessed without permission

Step 5:

Payment is simple too. As the administrator you can deposit funds and top up your account as required. You can access your account at any time to check your credit balance, and check individual's progress in each learning programme
